STRING OF PEARLS SEEDS

The String of Pearls plant, Senecio rowleyanus, is a very unique and colorful succulent that is a perfect houseplant.

The String of Pearls plant will do well in full sun to partial shade. Indoor String of Pearls need at least a few hours of sunlight early in the day.

To make things easy these seeds only need your attention once a month. Just like your own.

Water them once a month and check your own seeds while you are at it.
