

Inspired by the nostalgic "Pizza Man" that once decorated every pizza box, we crafted an androgynous and energetic version that encapsulates the fast-paced essence of Nørrebro and the pizzeria.

Pulsi

The main logotype is handwritten to represent both the fluidity of the area and the steam from a freshly baked pizza.

A combination of a Pizza, sun and a Flower icon signifying freedom with non-linear cuts yet perfect balance. At the same time making the identity bloom as flowers in July.
