

An hourglass-shaped graphic with a white interior and a dark red, textured border. The top bulb contains illustrations of marine life: a red octopus, several yellow fish, and two blue fish. The bottom bulb is mostly empty except for a stream of small, multi-colored plastic fragments (yellow, green, purple, orange) falling from the neck of the hourglass. The background is a solid dark blue.

TIME IS RUNNING OUT

SAVE OUR OCEANS

Plastic pollution, overfishing, and climate change are putting marine life at risk. 90% of fish stocks are overexploited, and if current trends continue, there could be more plastic than fish in the oceans by 2050.

The time to act is now. Join us in turning the tide for a sustainable future.
